ABSTRACT

The College-Level Academic Skill Test (CLAST) is part of Florida's system of educational accountability. It is an achievement test that measures students' attainment of the college-level communication and mathematics skills that were identified by faculties of community colleges and state universities. Students in community colleges and state universities take the CLAST. The CLAST consists of four subtests: an essay, English language skills, reading, and mathematics. This document contains the combined results of the three CLAST administrations for the 1998-99 school year and separate results for October 1998, February 1999, and June 1999. Results are based on the performance of first-time examinees in public institutions and independent institutions. These results include means and passing rates for each subtest for each institution, gender, and racial/ethnic category. Data is presented in table form. (Contains four sets of detailed tables.) (SLD)

## INTRODUCTION

The College-Level Academic Skills Test (CLAST) is part of Florida's system of educational accountability and is mandated by Section 229.551(3)(i), F.S. The CLAST is an achievement test which measures students' attainment of the college-level communication and mathematics skills which were identified by the faculties of community colleges and state universities through the College-Level Academic Skills Project (CLASP). The skills have been adopted by the SBE and are listed in Rule 6A-10.0316, FAC.

The CLAST consists of four subtests -- essay, English language skills, reading, and mathematics. The essay subtest affords students an opportunity to demonstrate the writing skills adopted by the SBE by writing an essay on one of the two topics presented. The English language skills subtest measures skills in the broad skill areas of word choice; sentence structure; and grammar, spelling, capitalization, and punctuation. The reading subtest measures skills in the broad skill areas of literal comprehension and critical comprehension. The mathematics subtest measures skills in the broad skill areas of arithmetic, algebra, geometry and measurement, logical reasoning, and statistics, including probability.

This document contains the combined results of the three CLAST administrations for the 1998-1999 school year (white pages), as well as separate results for October 1998 (blue pages), February 1999 (yellow pages), and June 1999 (pink pages). Results are based on the performance of first-time examinees in public institutions and in independent institutions. These results include means and passing rates for each subtest for each institution, for each gender, and each racial/ethnic category.
